

HARI SIMRAN KHALSA

OPERATIONS LEADERSHIP | PROCESS IMPROVEMENT | LOGISTICS TECHNOLOGY

Dublin, Ohio | hkhalsa095@gmail.com | [Portfolio website](#)

PROFESSIONAL PROFILE

Operations and logistics leader with 5+ years of experience across parcel distribution, dispatch, transportation planning, manufacturing logistics, and operational technology. Entered FedEx with prior experience leading teams of 70+, delivering measurable cost and quality improvements, managing transportation operations, and building/deploying operational software. Combines frontline leadership with continuous-improvement discipline, data tools, and systems fluency.

CORE CAPABILITIES

Workforce Planning & Development | Parcel Operations | Transportation & Route Planning | Continuous Improvement | Quality & Service KPIs | TMS/WMS Workflows | Blue Yonder | Power BI | SQL | Operational Reporting | AI-Augmented Full-Stack Development

PROFESSIONAL EXPERIENCE

FedEx | Operations Supervisor June 2026 - Present | Plain City, Ohio

Lead staffing, package-flow execution, frontline coaching, quality coordination, and operational recovery in a high-volume parcel facility; use Blue Yonder for attendance and staffing workflows.

Hidaka USA | TMS/WMS Specialist and Shipping Associate 2026

Supported outbound freight, receiving, inventory movement, production coordination, and transportation/warehouse systems in a manufacturing environment.

Maintained zero shipping and quality errors over three months; implemented workflow improvements producing approximately \$2,000 in weekly savings.

Schneider | Transportation Planning and Dispatch — SFS Contract September-November 2025

Contracted through Security Flaw Solutions on the implementation team launching Schneider's Kroger account; coordinated dispatch, scheduling, shipment tracking, and operational reporting.

Target | Security Specialist, Asset Protection 2024 - 2025

Supported theft/fraud investigations, evidence collection, case documentation, and safety standards; worked with TrueEye and TruScan automated skip-scan detection workflows.

UPS | Dispatch and Building Automation Supervisor January 2023 - May 2024

Coordinated 70 drivers across multiple municipalities, managing route priorities, dispatch, service disruptions, and real-time operating adjustments.

Generated approximately \$86,000 in estimated annual logistics savings through route optimization and workflow improvements; reduced overtime 20% through workforce balancing.

Monitored automated sort-system conditions and maintained service reliability while coordinating driver communication and dispatch changes.

UPS | Operations Supervisor August 2020 - December 2022

Led 70+ employees in a high-volume package distribution operation, managing labor allocation, quality, safety, service performance, and employee development.

Reduced daily misloads from approximately 100 to fewer than 10 over three months; ~\$1.17M estimated annualized cost avoidance using 90 fewer misloads/day x UPS's internal \$50-per-misload cost figure x 260 operating days.

Led operations supporting Pfizer COVID-19 vaccine distribution with zero distribution failures and 100% chain-of-custody integrity.

INDEPENDENT PRODUCT DELIVERY

Security Flaw Solutions | Founder & Lead Developer 2025 - 2026

Designed, built, deployed, and sold Alncident, an AI-powered operational reporting platform, for \$4,995 from requirements through commercial delivery.

Built application workflows with Python, FastAPI, PostgreSQL, Streamlit, AWS, and Docker; applied operations experience to structured reporting and usable software.

TECHNICAL SKILLS

Power BI | SQL | Python | FastAPI | PostgreSQL | Streamlit | AWS | Docker | Microsoft Excel | TMS/WMS Workflows | Blue Yonder Staffing & Attendance | AI-Augmented Full-Stack Development

EDUCATION & PROFESSIONAL DEVELOPMENT

Mechanical Engineering coursework, University of Cincinnati | High School Diploma, Hilliard Davidson High School

Certified Forklift Operator | FedEx QDM coursework in progress | IBM AI Engineering Professional Certificate in progress
